CapStar Bank Opens Green Hills Branch
Branch is Bank's First Stand Alone Office

(NASHVILLE, Tenn.) July 29, 2009 – CapStar Bank's Green Hills branch hosted a ribbon-cutting ceremony today to commemorate its grand opening after receiving required regulatory approvals from the Federal Reserve Bank of Atlanta and the Tennessee Department of Financial Institutions.

Located at 2321 Crestmoor Drive, the branch is CapStar's third location. The corporate office and main branch, which opened one year ago, are located on the ninth floor of 201 Fourth Avenue North in downtown Nashville, site of the original Maxwell House Hotel. CapStar's Brentwood branch, which opened in spring 2009, is located in Maryland Farms' Gateway II Building at 5500 Maryland Way, Suite 130.

"The Green Hills branch is the first office we have designed and built from the ground up. It combines traditional branch banking activity along with private and commercial bankers in a very open, relaxed and inviting environment," said Claire W. Tucker, bank president and chief executive officer. "It is exciting that despite the challenges facing so many financial institutions, CapStar Bank has grown substantially in the past year."

Candice H. Sullivan, Financial Center Manager for the Green Hills location added, "The Green Hills team looks forward to cultivating relationships with our customers and helping them achieve their financial goals." Working with Sullivan at the Green Hills Office are seasoned private bankers Beth Alexander, Robin Henderson and Deborah Hennessee, as well as commercial banker Clif Tant.

Led by a team of veteran bankers including Chief Development Officer Ken Webb and Chief Credit Officer Mark Mattson, CapStar offers customers a full line of traditional banking services including business and personal loans, a wide range of depository services, and VISA debit cards with free unlimited use of any ATM in the country that participates in the VISA, PLUS or NYCE Networks. CapStar also provides customers with a state-of-the-art Internet banking package as well as Remote Image Deposit technology, which allows customers to conveniently, securely and cost effectively make deposits from their place of business. The Green Hills office introduces for CapStar a state –of-the-art ATM that will accept check deposits and return a receipt with images of all checks deposited as well as perform all normal ATM functions.

When CapStar Bank was founded in 2008 it raised \$88 million in start-up capital, which is believed to make it the highest capitalized start-up bank in Tennessee history. CapStar focuses on the areas of small to middle market businesses, commercial real estate and private banking.
